The oath of office was administered to the President by Richard J. Hughes, Chief Justice of the New Jersey Supreme Court.

President Dodd introduced his family and delivered the following address:

ERA OF CHALLENGE

Mr. Chief Justice Hughes, Majority Leader Feldman, Minority Leader Beadleston, Fellow Senators, and Honored Guests:

Welcome to the House that today rededicates itself to the principles of government of the people and for the people — to the house that will open its doors to all who wish to come and participate — to the house that vows to once again make every citizen equate the word government with the highest standards of honesty and integrity.

Welcome to the New Jersey Senate.

This is the time of year for resolutions. Let us now commit ourselves to just a few. We must work hard, for the people who elected us deserve no less. We must resolve to meet the problems of New Jersey squarely and with courage. We will avoid no issues and will not shirk the challenges we have been elected to face. Each of us must affirm and resolve to work together in a nonpartisan manner, for only then can we weigh everyone's point of view.

It would be easy to sit back and passively wait for the Governor, his staff, or some other sincere and concerned group to propose legislation. But that's not the role we were elected to fulfill. We must seek our own answers. We must put forth that extra effort which separates excellence from mediocrity, success from failure. Nonetheless we must realize we are not absolute — the Senate must always welcome the public, and one way is to open all its doors, so any person can walk in and see exactly what we do, and how we do it.

At the same time we must never forget that although we have been chosen as leaders, we must be just as capable as listeners. Each of us has the duty and obligation of listening to the people who have sent us to Trenton. We bear the obligation to seek responsible criticism and proposals from all who wish to be heard. Only by opening our offices and

minds to everyone, by utilizing the ideas and talents of everyone, can we dare hope to succeed.

As I previously stated, we must squarely meet the issues. First on that list is the energy crisis. Admittedly, the Federal Government has usurped most of our authority in that area, but it certainly has not helped New Jersey. We must determine how much latitude we still have, and exercise that prerogative to its fullest. New Jersey is home to 60% of the East Coast's refineries, yet we have been most hurt by fuel shortages. Vigilance alone will not solve this crisis but at least we can deliver to our people all that they are entitled.

With innovative programs we can curtail the problem of violent crime. We all must realize that the mugger, robber, or murderer will own the streets unless we improve our penal institutions and procedures; unless we insure swift and impartial justice in our courts. Our correctional institutions must truly correct. And at all times we must remember that our *primary* duty is to protect society.

We must also face the plague that drug abuse has literally dropped on our doorstep. — Marshall whatever forces are needed to deal with hard core pushers by tightening our laws and stiffening penalties. New Jersey will not become a haven for New York's rejects. But at the same time we must find the patience, wisdom, and compassion to develop effective programs to rehabilitate our already-addicted young.

While being ever mindful of these serious social problems we must also consider the state of our environment. Together we can develop legislation which will reverse the pace of environmental spoliation and reclaim what we have already despoiled. We must carefully guard against sale of public lands to private interests. We cannot leave our youth a heritage of waste.

Youth — our greatest resource and our heaviest responsibility. Recently, this house passed and the Governor signed a bill which reformed our juvenile justice system. — There is so *much* more to be done. This Legislature will have the opportunity to pass the most far-reaching child abuse proposal in New Jersey's history — a proposal which I am proud to have drafted and sponsored. We also have the power and responsibility to be sure adequate care is

given to the young who are emotionally troubled. These silent children have no lobby — they cannot come and talk. They can only rely on the collective conscience of this house. We shall not fail them.

Countless other issues are equally pressing — financing education — senior citizen's problems — mass transportation — urban decay — our beleaguered farmers — the list can stretch from Cape May to Sussex.

At this point the task may seem overwhelming. That feeling can be alleviated if we professionalize the Senate. By that I mean we should retain sufficient staff to research, to recommend, to help reach our people, and to transform ideas into laws. Any cost this might entail would be returned threefold by increased governmental capacity and efficiency. The ultimate beneficiary will be the people.

Senators, we have a long road to travel. Late hours and hard work should be our companions. During these next four years I hope each of us recalls the words of Emerson, "The wise know that foolish legislation is a rope of sand which perishes in the twisting; but they who build on ideas build for eternity."

Let's build on ideas together.

It is with a deep sense of privilege and duty that I accept this post as Senate President. I shall do my best.

Thank You.

On motion of Mr. Maressa that Mr. Robert E. Gladden be elected to the position of permanent secretary, it was decided as follows:

In the affirmative were—

Messrs. Ammond, Beadleston, Bedell, Buehler, Cafiero, Davenport, Dodd (President), Dugan, Dumont, Dunn, Dwyer, Fay, Feldman, Garramone, Greenberg, Hagedorn, Hirkala, Horn, Hughes, Imperiale, Lipman, Lynch, Maressa, Martindell, McDonough, McGahn, Menza, Merlino, Musto, Orechio, Parker, Russo, Scardino, Skevin, Tumulty, Vreeland, Wallwork, Wiley, Zane—39.

In the negative—None.

Whereas, Drug addiction has grown in devastating proportions destroying individuals and families from the very poor to the very rich; and

Whereas, The "merchants of death" know the hopelessness of drug addiction and have created a drug market which forces helpless addicts to prey on strangers and families robbing them of money and property to purchase these death substances, assaulting and even killing their victims in the process; and

Whereas, The problem of international drug traffic is beyond the control of local authorities and requires a national and international force to fight the flow of drugs from the source to the arms of our young people; and

Whereas, Nothing short of all-out "War On Drugs" can effectively stop this ugly plague; this merciless money-making device; this potential destroyer of our society;

Be It Resolved by the Senate of the State of New Jersey:

That the State urge all citizens to help focus attention on this tragic problem by joining in the "March on Death," April 10th in Newark, sponsored by the National Committee to Declare War on Drugs, President, former Assemblyman George C. Richardson. Moreover, I charge each citizen with the responsibility of cooperating with all law enforce-

Such a request for a fiscal note shall be processed in the manner prescribed by Rules 137 through 142.

PRESIDENT OF ISRAEL

Jerusalem, 24 June 1974.

Mr. Robert E. Gladden
Secretary of the New Jersey Senate
The State House
Trenton, New Jersey

Dear Mr. Gladden:

I most appreciatively acknowledge the forthright and moving Resolution on the massacre at Maalot, adopted on May 16, 1974 by the Senate of the State of New Jersey.

The Senate seems to me to have touched the heart of the matter in calling upon *all* nations to repudiate terrorist tactics "as being incompatible with the attainment of any aim worthy of human beings".

Let us hope for the prevalence of a more humane spirit in the lands where the moral law was first enunciated.

Sincerely,

EPHRAIM KATZIR.

On Page 160: Line 11 "Grand Total Appropriation ..... $2,757,209,203"

This item is reduced to $2,756,095,978.

The item on page 19 would involve the State of New Jersey in the Metropolitan Regional Council's closed cir-

cuit television system established to facilitate viewing of governmental activities. Participation in the system would cost substantially more than the $35,000 appropriated in this bill for equipment rental and maintenance. Additional funds would be needed for operating expenses, scheduling and coordination personnel, studio space and equipment storage space.

The item on page 25 is being reduced from $200,000 because the Opera Theatre appealed to the Joint Appropriations Committee for an appropriation in excess of the request recommended by the Division of Budget and Accounting. The Council on the Arts requested $1,599,182 for fiscal year 1975, $200,000 for the Opera Theatre. The Division recommended $730,000, $100,000 for the Opera Theatre. In preparing the requests and recommendations, the Council and the Division established priorities among the subsidized fine arts organizations. The Opera Theatre's appeal to the Committee, and the consequent increase from $100,000 to $200,000, alters these studied plans and priorities. In the future, in addition to any subsidized fine arts organization's being limited to subsidies approved by the Council on the Arts, the Council should monitor expenditures by the subsidized organizations to ensure proper accounting and efficiency, and should report its findings annually to the Department.

The item on page 29 establishes a new grant program in the Department of Agriculture which would provide funds to soil conservation districts even though no enabling act authorizes such funds. Soil conservation districts are currently eligible for grants under a program established in the New Jersey Department of Environmental Protection pursuant to P. L. 1972, c. 49. The new program represented by this $90,000 appropriation would interfere with effective program management and promote unnecessary competition between the Department of Environmental Protection and the Department of Agriculture.

The item on page 48 establishes a priority for a flood plain and watershed survey for the Jacobs Creek Watershed which does not conform to the Department of Environmental Protection's priorities. Such surveys are normally done by the Department, which has not requested funds for a survey of the Jacobs Creek Watershed.

The item on page 53 continues an anomaly in the State of New Jersey in that the Bridgeton Public Zoo is the only

State-subsidized zoo currently operating. The Division of Parks and Forestry in the Department of Environmental Protection has never requested such an appropriation.

The item on page 65 represents an increase in the Glassboro State College budget to provide $50,000 in lieu of taxes to the Town of Glassboro, which presently receives $2,500 pursuant to R. S. 54:4–21. Two bills pending in the Legislature, S-1245 and A-1874, would provide state in lieu of tax payments to all municipalities, not just Glassboro, in which the State owns any land. The pending bills, which I fully support, would make this individual appropriation unnecessary.

The item on page 74 provides $350,000 for evening legal education at Rutgers University. The Rutgers University Board of Governors has endorsed the development of evening law schools and plans to submit formal recommendations to the Board of Higher Education in the near future. It is understood that the plans cannot be implemented until fiscal 1976, the 1975-76 school year. Therefore, the directed expenditure is unnecessary in this annual appropriations bill.

The items on pages 82, 86 and 156 include directions to the Department of Transportation regarding the expenditure of certain sums of money which are subsumed in the overall appropriation to the Department. The annual appropriations bill is an inappropriate vehicle for determining departmental priorities, and effective program management dictates that the Department decide for itself which highways and projects are most in need of work. On the other hand, some of the specific projects contained in the directions to the Department, particularly "the construction of jughandles and the installation of traffic lights on StateHighway 70," have my support, and the Department has assured me that these projects will proceed.

The item on page 124 includes directions as to the expenditure of some of the $2,000,000 requested by me and appropriated at page 121 for "additional salary and fringe benefits resulting from negotiated contractual agreements with various employee negotiations." The specific directions do not match the requirements of agreements consummated through collective negotiations, or the requirements of enacted legislation. For example, A-4 alters the amount of vacation time accruing to some State employees,

but bears a cost different from the $320,000 included in the annual appropriations bill's direction. Since collective negotiations have allocated the $2,000,000 differently from this bill, these directions are unnecessary and inappropriate.

The item on page 132 provides funds to the Town of Keansburg so that funds advanced by the State on behalf of Keansburg may be repaid. The State's obligation in the beach erosion and hurricane protection project begun in 1963 which is the subject of this appropriation, was at the time limited to 50% of the non-federal share of the project. The State, however, paid the entire local and state share to the federal government, the contracting authority, with the expectation of reimbursement from various units of government. All units of local government except Keansburg have reimbursed the State, but Keansburg has refused to pay its fair share. This $283,225 therefore not only undermines agreements long in effect, but could lead the other units of local government, which have already paid their fair share, to request similar assistance from the State.

Tte items on page 135 relate to two small museums singled out from among 20 or more throughout the State for special assistance. There has been no serious consideration given as to whether the type of museum aid program of which these appropriations can only be regarded as a beginning is advisable, and whether the total cost of such programs can be borne. For example, the State currently provides the Newark Museum $482,195, or about ⅓ of the full cost. Were such support to be provided all museums in the State, appropriations in future fiscal years would far exceed the $40,000 encompassed by these two items.

The item on page 136 assists the operation of a camp for handicapped children in Passaic County. Although such camps are beneficial, serious consideration should be given as to whether the State should in general subsidize similar camps in other counties. As it stands now, this $50,000 appropriation represents a type of expenditure the implications of which have not been completely analyzed.

The item on page 144 provides aid to rural areas despite the Legislature's failure to enact enabling legislation for this type of program. It is also important to note that several administration bills currently pending in the Legislature, by having the State assume more of the costs of welfare, courts and the schools may well make the type of assistance contemplated by this appropriation unnecessary.

The item on page 157 includes a direction to the Department of Transportation to expend funds from the State Transportation Fund for the activation of the West Shore Railroad contingent upon receipt of federal funding. This type of provision would impede the State's flexibility in seeking and receiving the maximum available federal funding.

These items are deleted in their entirety.

Senate Bill No. 1151 is a supplemental appropriations bill for the fiscal year ending June 30, 1974. The bill includes authorization for the payment of certain claims filed against the State of New Jersey. Among these claims are those which have been objected to by the Executive Departments of State Government and by the Attorney General, and in one instance, by the Administrative Office of the Courts. I have decided, for the reasons stated below, to delete entirely the following objected to claims.

In the Claim of Ellen R. O'Brien, it is alleged that the claimant loaned another individual $1,000, which was to be secured by an interest in a motor vehicle owned by the borrower. Subsequently, the borrower obtained a duplicate certificate of title from the Division of Motor Vehicles which did not reflect the claimant's secured interest. He then sold the vehicle and absconded from the jurisdiction.

Although a mistake was made by employees of the Division of Motor Vehicles in the issuance of a duplicate certificate of title without the claimant's security interest being reflected thereon, N. J. S. A. 39:10–14 specifically provides that the Director of the Division of Motor Vehicles and its employees and agents shall not incur any personal liability with respect to the recordation and issuance of certificates relative to security interests in motor vehicles. The acceptance of liability by the State for every clerical error of a State employee in some way causing damage to a member of the public would open up a substantial area of potential claims against the State. Finally, during the course of the

hearing before the Legislative Subcommittee on Claims, the claimant testified that after she became aware that the borrower had sold the motor vehicle on the basis of the duplicate certificate of title which failed to mention her security interest, she attempted to negotiate with him directly without notifying the Division of Motor Vehicles. This course of action prejudiced the opportunity of the State to take any corrective action, and undercuts any equitable claim which Miss O'Brien otherwise might have had.

The Claim of Maurice River Township pursuant to N. J. S. A. 54:4–2.1 is based upon the present assessed value of the State land therein, not upon the valuation thereof at the time of acquisition. N. J. S. A. 54:4–2.1 provides, *inter alia:* ". . . said lands shall be assessed at the same value at which they were assessed at the time they were acquired by the State . . ." The lands owned by the State through the Division of Fish, Game and Shellfisheries in Maurice River Township comprise approximately 12,124.42 acres, representing periodic acquisitions of land commencing in the 1930's. Apparently, the only time that Maurice River Township submitted a claim for payment in lieu of taxes was in 1970. That bill was in the amount of $1,406.71, based upon 50% assessed value at the rate of $6.33 per $100. The tax rate in Maurice River Township has decreased to $5.49 per $100 valuation. Not only has the tax rate fallen, but the amount of the claim in Senate Bill No. 1151 is higher than the 1970 claim. It is therefore apparent that the claim in question is based upon present assessed value in contravention of the statute.

The Claim of Sandyston Township, like that of Maurice River Township, appears to be based upon N. J. S. A. 54:4–2.1. One of the conditions set forth in that statute for the payment in lieu of taxes by the State for fish and game properties is that the aggregate area owned by the State must be at least 9% of the total area of municipality. However, the State only owns 7.8% of the land in Sandyston Township and is therefore exempt from taxation pursuant to N. J. S. A. 54:4–2.1.

In the Claim of Albert Burkham, the State constructed a drainage ditch within the State right-of-way alongside Highway 35. Unknown to the State, the claimant's septic overflow lines ended nearby. The water table in this area

is very high and had increased substantially due to increased annual rainfalls. The claimant alleges that he was required to relocate his overflow lines from his septic system because of the construction of the State's drainage ditch which was needed to prevent icing conditions on the highway. Claimant asserts that he was required to expend thousands of dollars making repairs and that the value of property was impaired by the construction of this drainage ditch. However, claimants subsequently sold their property for much more than he had originally paid for it. There is no evidence of any negligence or actionable conduct on the part of the Department of Transportation or its employees. Furthermore, if this claim were asserted under the Tort Claims Act, it would be barred under the plan-design immunity provisions.

The Claim of Edwin F. Fay and Elizabeth B. Fay, and also the claim of Royal Rack Service Co., Inc., are claims for payment of the money required to condemn property along a right-of-way for which the Department of Transportation lacks sufficient funds to complete condemnation. These claims are technically deficient. As one example, the bill requires the entire appropriation, including relocation funds, to be deposited with the Clerk of the Superior Court; absent the bill, the Department could take title to or possession of the property by depositing only the registered fair market value in court. No such type of deposit is provided for in the Uniform Transportation Replacement Housing and Relocation Act, N. J. S. A. 27:7–72 et seq., and the bill offers no guidelines as to the withdrawal of the appropriated relocation funds. As another example, by court order dated July 2, 1973, the action to condemn the property subject to the Royal Rack Service Co., Inc. claim was dismissed. Thus, the bill appropriates $346,700 for the acquisition of property which is no longer in condemnation.

In addition, the provisions of the Supplemental Appropriations Act are an inappropriate means for the State to determine what property to condemn for public purposes or how much to pay for it. The appropriation of $504,700 would only scratch the surface of the Department's money problems with regard to Route 90, Section 2. On this highway project alone, the Department is in need of approximately $2 million for right-of-way acquisitions. Furthermore, there is no reason why the property owners on this highway project should be treated better than property

owners on other highway projects. In short, many millions of dollars would be required to solve problems throughout the State similar to those which the subject appropriations seek to resolve.

On the other hand, substantial equitable considerations favor the Claims of the Fays and of the Royal Rack Service Co., Inc. and I understand the Commissioner of Transportation is negotiating procedures with the claimants to provide appropriate compensation to them. I am informed that funds are available to the department to compensate these claimants and others along Route 90, Section 2 who are in similar situations.

The Claim of the County of Morris for $7,491 would be paid from funds heretofore appropriated to the Judiciary (Account 970) for court operations (73100). The trial of Squires and Chesimard was transferred from Middlesex to Morris County to assure the defendants the opportunity for a fair and impartial trial. This is a procedure normally followed when there is some question that litigants or defendants in a case cannot receive a fair and impartial trial in the county where venue is regularly set.

It is inappropriate, however, to require the Judiciary to use funds appropriated to it for other reasons to defray the additional expenses the Sheriff's Office in one county may incur as the result of the transfer of a case, as was done in this instance, even if the case derives from the State-wide Grand Jury. The expense of providing security through the Sheriff's Office in a particular county is not an appropriate expense for the Judiciary in the first instance. There should therefore not be a requirement that the Judiciary assume this expense of security merely because a case is transferred from one county to another.

The following veto message was received from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
September 19, 1974.

SENATE BILL No. 754

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 754 without my approval.

Senate Bill No. 754 would amend "The New Jersey Highway Authority Act' to add motorcycles to the list of vehicles permitted on that portion of the Parkway situated more than 5 miles north of its intersection with the northern boundary of Ocean County. Supporters of the bill, including legislators and others who testified at the legislative hearings and at an open forum I held after its passage clearly believed that the bill would abrogate a regulation adopted by the Highway Authority which bars motorcycles from the road and that it would prohibit the Authority from excluding cyclists.

An examination of Senate Bill No. 754 leads me to conclude that its supporters may well be frustrated in their desire to accomplish this intended purpose. By another section of its enabling legislation, N. J .S. A. 27:12B–17(b), the Authority may exclude any traffic other than passenger motor vehicles. The mere addition of motorcycles to the list of permissible vehicles does not seem to preclude a prohibition under this section. Indeed, the Authority may well conclude that no additional action is required to preclude cyclists, thereby avoiding any question of gubernatorial veto. In these circumstances, it does not appear desirable to adopt legislation which might not accomplish its purpose.

A review of the history of motorcycle use on the Garden State Parkway seems appropriate. On February 1, 1961 the Highway Authority prohibited motorcycles from using the road apparently on the basis of a study of the experience for the preceding seven years.

The Parkway's safety record is excellent. Some contend that this record is a result of the design of the road, while

others argue it is in part attributable to the selective exclusion of certain types of motor vehicles, including motorcycles. Others argue that the exclusion of motorcycles from the Garden State Parkway has increased the hazards of other State highways and that the motorcyclists are needlessly exposed to greater risks on more dangerous alternative roads.

I believe that these questions might be usefully resolved by a reasonable trial period during which the safety experience with motorcyclists on the Parkway can be evaluated. I request that the Highway Authority develop and implement procedures which will permit motorcyclists to use the Garden State Parkway on a trial basis. In the event that a fair test period is not undertaken, the Legislature may then by an effective bill decide to mandate that it be done.

Respectfully,

[SEAL] /s/ BRENDAN BYRNE,
Attest: *Governor.*
DONALD LAN,
Executive Secretary to the Governor.

STATE OF NEW JERSEY,

SENATE BILL No. 134

To the Senate:

I return Senate Bill No. 134 without my approval, pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, for the following reasons:

The Division of Tax Appeals, in *Harold Keitelman* v. *Borough of New Shrewsbury,* L. 2871-67, L. 3539-68-1, held aboveground swimming pools lacking permanent connection to the land to be personal property, whether or not disassembled. This ruling, I am advised, is being followed, and this bill is therefore unnecessary.

Distinguishing between personal property and real property is a broader problem than the classification of swimming pools, and according to the Division of Taxation, requires early resolution. I have therefore directed the Division to assess the current state of the law in this area,

and to recommend needed statutory and administrative reforms as soon as possible.

Respectfully,

[SEAL] /s/ BRENDAN BYRNE,
Attest: *Governor.*

STATE OF NEW JERSEY,

SENATE BILL No. 962

To the Senate:

Pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, I herewith return Senate Bill No. 962, without my approval, for the following reasons.

This bill permits a member of the Public Employees' Retirement System, within three months of the effective date of this act, to purfichase credit for his temporary service, if that service resulted in permanent employment. Existing law permits a member to make contributions covering his temporary service only during the first year of his membership in the retirement system.

The cost of purchase of credit for previous service normally requires the employee to pay ½ of the total cost of the purchase and the employer to pay the remaining ½ of the cost. However, because a member is permitted, under the present statute, to purchase credit for his temporary service only during his first year of membership, the employee cost of such a purchase is based on the member's salary and age at enrollment. If he were permitted to purchase such credit on the same basis many years after his enrollment, when he is much older and has a considerably higher salary, he would be paying substantially less than ½ of the total cost of such service. Therefore, for each of the thousands of employees who would become eligible anew pursuant to this bill, the cost to the individual would be minimal but the cost to the State or local employer would be considerably more than ½ of the cost. The cost of each year of service benefit is currently $2,000 for the average member. The employee's proper share of the $2,000

cost of a year of service benefit should be $1,000, but because his share of the cost of purchase of temporary service is computed on the basis of his age at enrollment, the average employee would pay substantially less, and the employer substantially more.

The cost to the State and to local participating employers resulting from signature of this bill could be slightly over $8,000,000. This cost would have to be amortized by an increase in the contribution paid by the State and all participating employers.

In view of the windfall which would occur as a result of my signing this bill, I see no reason to provide a second opportunity to purchase temporary service benefits at nominal cost to employees who under existing law had the opportunity during the first year of their membership in the retirement system, a year in which the individual's salary and age as a temporary employee approximated his salary and age as a permanent employee, thereby minimizing any windfall.

Accordingly, I feel I must return Senate Bill No. 962 without my approval.

Respectfully,

[SEAL] /s/ BRENDAN BYRNE,
Governor.

The following message was received from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
October 21, 1974.

SENATE BILL No. 91

To the Senate:

I return Senate Bill No. 91 without my approval, pursuant to Article V, Section I, Paragraph 14(a) of the Constitution, for the following reasons.

This bill requires the publication of a notice of acquittal of criminal charges at the request of any acquitted defendant. Such notice would be placed in any two newspapers of general circulation chosen by the acquitted defendant, and the cost of publication would be borne by the county.

The New Jersey Press Association has expressed firm opposition to this bill on public policy grounds, and I concur in the Association's reasoning. As a free press is at the heart of a strong democracy, no newspaper should be mandated to publish any material, even as an advertisement, particularly when the size and layout of that material is also dictated. In requiring newspapers to publish material that the newspaper may not desire to publish, this bill raises the type of First Amendment issues that have been closely scrutinized by the United States Supreme Court. *See, e.g., The Miami Herald Publishing Co. v. Tornillo,* 42 U.S. L.W. 5098 (June 25, 1974).

As a practical matter, it is also questionable whether the $37,000 cost resulting annually from this bill is an effective expenditure of funds. Any notice of acquittal would be too far removed in time from original publication of charges against an acquitted defendant, and would be too small and inconspicuously placed, to fulfill the intent of this bill. Furthermore, it forces acquitted defendants to make a difficult choice as to whether to further publicize criminal charges that may have originally escaped notice.

Accordingly, I feel I must return Senate Bill No. 91 without my approval.

Respectfully,

[SEAL] /s/ BRENDAN BYRNE,
Governor.

Attest:
/s/ DONALD LAN,
Executive Secretary to the Governor.

WHEREAS, Many of the most prestigious educators in the country and this State have now determined that many factors other than dollar input determine a child's success or failure in school; and

WHEREAS, The Senate for the first time has clearly and precisely spelled out the content of the educational opportunity the constitution requires and the means to insure its success in Senate Bill No. 1295; and

WHEREAS, The implementation of the provisions of Senate Bill No. 1295 and the determination of the thoroughness and efficiency of schools in the 607 school districts of the State will take a considerable period of time; and

WHEREAS, Upon a finding that a school or school district is not providing a thorough and efficient system of education and that additional money will be needed to provide such a system of education, it is the intention of the Legislature to provide the State's share of additional school expenditures; now, therefore

Be It Resolved by the Senate and General Assembly of the State of New Jersey:

1. The Legislature hereby declares that it is the policy of this State in response to the Constitutional mandate upon the Legislature to "provide for the maintenance and support of a thorough and efficient system of free public schools" that such mandate can effectively and rationally be fulfilled only through a comprehensive program which includes a continuous assessment and evaluation by the State of the quality of education being provided by local school districts throughout the various geographic and socio-economic regions of the State, the development and maintenance of plans, goals and objectives by each school district to provide a thorough and efficient education, identification by the State of educational failures and educational successes, a research and development program to identify the causes of educational failures and to formulate, test and implement successful educational models, and provision for State financial assistance to implement remedial measures and programs deemed necessary to overcome shortcomings and to correct education failures. Such policy is embodied in and would be effectuated by the enactment of Senate Bill No. 1295 which clearly and precisely sets forth the type of comprehensive program required to meet the Constitutional mandate.

2. That this House, mindful of its constitutional responsibilities both to provide for the maintenance and support of a thorough and efficient system of free public schools, and to abide by the decisions of the highest court of this State, and mindful, too, of the practical impossibility of properly fulfilling either such responsibility in the limited time remaining until December 31, 1974, hereby renews its dedication to continuing the pursuit of means to fulfill those responsibilities and to continue, increase and intensify all efforts towards that end in full faith and confidence that these actions will conform to the spirit of the Supreme Court's ruling in "Robinson v. Cahill," and will

result in a continued movement towards the goals that will conform not only to the letter of that ruling, but to the wishes and best interests of the citizens of this State.

The following communication was received from the Director of Motor Vehicles, read by the Secretary and ordered filed by the President.

State of New Jersey
Division of Motor Vehicles
Office of the Director
25 South Montgomery Street
Trenton, New Jersey 08666

John A. Waddington,
Director

November 15, 1974.

Honorable Frank Dodd
President of the Senate
State House
Trenton, New Jersey 08625

Re *Senate Resolution of July 28, 1974*

Dear Senator Dodd:

By resolution adopted July 29, 1974, the Senate directed the Division of Motor Vehicles to study and make its recommendations to them concerning the practicability and feasibility of preparing and distributing license plates publicly commemorating, not only the Bicentenary, but the role of New Jersey in making it possible.

The Division of Motor Vehicles, in collaboration with the staff of the Bicentennial Commission, has evaluated several plans and herein makes its recommendation.

The use of a special commemorative license plate is more complicated for New Jersey than in many other states because of our requirement of both front and rear vehicle identification plates. A number of states use only a rear plate; some issue new plates annually.

We studied possibilities, including the issue of sets of two commemorative plates, one commemorative plate, attaching a special commemorative shield, metal strips or plates. We evaluated factors such as costs, the necessity to maintain registration files for at least three years, the law enforcement problems resulting from several million front plates being "at liberty," and the difficulty of combining an appropriate bicentennial message with the vehicle identifying numbers and letters on the license plates.

We recommend that the law be amended to permit the display of a special commemorative plate on the front of vehicles for an 18-month period extending from July 1, 1975 to December 31, 1976.

The commemorative plate of lightweight metal would be placed in front of the vehicle's regular license plate during the permitted period, but there would be no change in the requirement of two vehicle identification plates nor in the Motor Vehicle registration files. The commemorative plate would, of course, be a voluntary purchase by the motorist. The Bicentennial Commission will design the commemorative plate and arrange for the manufacture and distribution.

The Bicentennial Commission approved this proposal at its November 7 meeting and has designed a proposed commemorative plate (see attachment). The Commission has tentative plans that the plate be sold through nonprofit organizations, such as several county and municipal bicentennial committees, for approximately $2.95 per plate. This fee includes a small profit above manufacturer's cost which will be retained by each selling group for its bicentennial celebration efforts. The manufacturer's cost will include a ten percent royalty for the State Bicentennial Commission.

An indication of intent concerning amending the law for this proposal is needed soon from the Legislature and the Governor to enable the Commission to firm up the contract for manufacture and the plan for distribution and sale.

We trust this provides a satisfactory response to the Senate Resolution.

Very truly yours,

John A. Waddington, Director
Division of Motor Vehicles
Walter T. Peters, Jr.

State of New Jersey
The Senate
State House, Trenton, N. J.

Senate Resolution by Senator Dunn, Adopted July 29, 1974

WHEREAS, The State of New Jersey was not merely among the original colonies which, in 1776, threw off the cloak of colonialism and established in the New World a new nation, but was foremost in its advocacy of freedom and most zealous in its pursuit of libetry; and,

WHEREAS, The inspiration provided by the momentous Battle of Trenton was only the first of New Jersey's contributions to a war that could not have been won without the heroic sacrifices of its people; and,

WHEREAS, It is altogether fitting and proper that the pride every citizen of this State is entitled to feel for the role played by this State in the birth of the United States of America should be publicly manifested by our people and publicly encouraged by our State Government; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. It is the overwhelming sentiment and sense of this House that the State Government should encourage all citizens of this State to manifest their pride for the role played by this State in the birth of the United States of America, and that among the many activities and celebrations being planned for the Bicentenary Year 1976, it is appropriate for the State to consider the practicability and feasibility of preparing and distributing license plates publicly commemorating not only the Bicentenary, but the role of New Jersey in making it possible; and that to this end the Division of Motor Vehicles in the Department of Law and Public Safety should undertake a study and make its recommendations to the Senate concerning the implementation of this proposal.

2. A copy of this resolution, signed by the President of the Senate and attested to by the Secretary thereof, shall

be forwarded to the Director of the Division of Motor Vehicles in the Department of Law and Public Safety, to the Attorney General, and to the Governor.

FRANK J. DODD,
President of the Senate.

ROBERT E. GLADDEN,
